Our Value Proposition: Education, Conservation and Economics

- Our shoe recycling service allows everyone to conveniently participate in an incredibly worthy cause
- Shoe recycling for reuse allows your organization to participate in a great cause in a no-cost, feel good way—It's a **Return on Involvement—the new ROI**
- It's a simple and sustainable way for your organization to make money: ShoeBox Recycling will pay **\$.50** per pound for paired, secondhand shoes

How we get started:

- Our shoe-recycling program is easy! We give you boxes.
- You fill them up and make them heavy-40 lbs. heavy (we are sustainable after all)!
- We give you a label and pay for FedEx to bring them to us
- We send you checks cut monthly based on the pounds of shoes collected
- You make your customers happy, the planet happy, and your bottom line happy

Have you found your SoleMate?

- The best part of our shoe recycling program is the opportunity for you, your fellow recyclers to find their SoleMate (visit www.shoebboxrecycling.com to download your note)
- With a simple note in the shoe, you can trace the path your shoes take to meet their new feet
- Our shoes are for reuse all around the globe, putting landfills on diets and teaching all that worn is not worn out
- What are the chances that your SoleMate is out there? You must recycle to find out

How much can you earn?

- 1 Box packed tightly weighs about 40 lbs. Payout = \$20.00
- Fill 5 boxes per month and Payout = \$100.00
- Continue for a full year and earn \$1200.00
- Add a Team of 5 and everybody collects 5 boxes per month and payout is \$2500.00 per month
- We put the fun back in fundraising by proving that worn does not mean worn out

Some FAQ's:

- Each year over 300 Million shoes are landfilled
- It takes over 200 years before a sneaker even starts to break down in a landfill
- Used shoes are in great demand in developing countries
- Recycled shoes create jobs and fuel local economies both here and abroad
- The Council for Textile Recycling has set a goal of zero waste by 2037

Now is the Time!
